Has to Offer!*

”

"Where Science provides solution."

About Us

We offer reliable, accurate, and authentic test results with the maintenance of a high level of impartiality, confidentiality, and consistency in laboratory operations. The laboratory is well-maintained with advanced and sophisticated instrumentation and the implementation of a Quality Management System following ISO/IEC 17025:2017 & ISO 9001:2015.

Our Mission & Values

We established in year 2020, with an initiative to provide Chemical & Microbiology testing services for water, waste water, food, and soil at nominal cost.

we are committed to provide authentic, accurate, reliable, prompt, timely testing and analytical services; to consistently meet and exceed customer requirements and expectations, through effective and consistent implementation of full requirements of ISO/IEC 17025 and Quality Management Systems at all times.
